Github: github/suryakant1811 Mobile: +91-6307919337

SKILLS

Languages: Java (Major), C++, Python, JavaScript
Frameworks: MERN Stack (MongoDB, Express.js, React.js, Node.js), Tailwind CSS, Next.js
Tools & Platforms: Git, VS Code, MySQL, Vercel, Cloudinary, Postman, Github Actions, Render
Cloud & DevOps: AWS, Docker, Kubernetes, Jenkins, Ansible, Terraform
Soft Skills: Problem Solving, Cross-Functional Teams, Continuous Learning, Time Management

INTERNSHIP

ShapeOurSpace | LINK December 2025 – January 2026

- Architected and developed a **scalable MERN application** using **JWT-based RBAC, OTP authentication using Fast2SMS**, improving onboarding security and reducing unauthorized access risks by **~40%.**
- **Containerized and deployed** the application using **Docker and cloud infrastructure**, enabling **orchestration, secure configuration and CI/CD workflows**, ensuring **24×7 high availability and scalability**.
- **Optimized Backend API performance** and **frontend state management, reducing response latency by ~30%,** deployed in **AWS EKS** resulted in concurrent user capacity using **modular, scalable architecture.**
  Tech stack: React.js, Node.js, MongoDB, Express.js, Jenkins, AWS

SampurnaKart Innovations Pvt. Ltd | LINK April 2025 – July 2025

- Designed and maintained robust **server-side services**, developing secure login systems, route-level authorization, and integrating **Razorpay** for payments which improving payment success rate by **~20%.**
- Established **automated build and release** processes by configuring **GitHub Actions pipelines**, incorporating **SonarQube** and container-based packaging to improve code reliability and deployment stability.
- Executed **infrastructure** transition from **AWS** to **DigitalOcean**, reduced operational expenses by **~45%,** integrated location module using **OLA Maps** , and leveraged **Ansible** to orchestrate environment provisioning.
  Tech stack: React.js, Node.js, MongoDB, Express.js, GitHub Actions, DigitalOcean, Terraform

PROJECTS

Musify – Streaming Web App | Github | Live June 2025 – March 2026

- Worked on a music streaming platform featuring a **role-restricted admin dashboard** to curate albums, uploads tracks, organize playlists, and enhanced content and user listening with interactive and responsive app UI.
- Deployed it having a **production-app** using **docker and Kubernetes** for shipment**, Terraform** to build **infrastructure, Jenkins** for **CI/CD, ansible** for **infra-configuration, sonarqube** and **trivy** to scan **vulnerability and security issues.**
- Created a **centralized observability system** using **Prometheus, Grafana,** and **Loki** to monitor **system health** with **automated alerting** and **proactive issue detection** which helps in **0% downtime** including **24*7 higher availability**
  Tech stack: Typescript, React.js, ShadCN UI, Node.js, Google OAuth, Vercel, Render, Clerk, MongoDB

Picx – Social Platform | **Github | Live** April 2024 – May 2024

- Developed a **scalable social media platform** enabling users to share **photos, posts, and live updates** , delivering a **responsive UI** with **Redux state management** to enhance engagement and performances.
- Built a **secure and scalable** backend architecture with **authentication, authorization,** and RESTful **APIs**, ensuring reliable data flow and system integrity, Optimized database queries and API performance
- Optimized **media upload** pipelines and content delivery workflows to enhance **application** performance and experience across the platform Improved **API response time** using **WebSockets, token-based security.**
  Tech stack: MongoDB, Express, React.js, Node.js, Tailwind CSS, Material UI,

CERTIFICATES

- Job Ready Cohort | **Link** November 2025
- Data Structures & Algorithms | **Link** July 2025
- Cloud Computing | **Link** May 2025

CO-CURRICULUM ACTIVITY

- Gained hands-on experience in rapid prototyping, API integration, Team collab via Binary and Blitz October 2024

EDUCATION

Lovely Professional University Punjab, India
Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.4*** *August 2023-Present*

St Mary's School Fathepur, Lucknow
Intermediate; ***Percentage: 84*** *April 2021 - March 2022*

St Mary's School Fathepur, Lucknow
Matriculation; ***Percentage: 82*** *April 2019 - March 2020*
